CHAIRMAN'S REPORT

Dear Member,

It is my pleasure to present the Fund's financial results for the 2024 financial year.

Operating environment overview.

In 2024, the operating environment was marked by economic uncertainty, with inflation and foreign exchange volatility posing significant challenges in the first quarter of the year. However, timely interventions by the Reserve Bank of Zimbabwe (RBZ) and the Government helped stabilize the economy.

The RBZ launched the Zimbabwean Gold (ZWG) in April 2024 to replace the Zimbabwean dollar (ZWL) due to its rapid depreciation. The ZWL inflation as of April 2024 was estimated at 371% year on year. Although the ZWG was stable on the official market until September 2024, parallel market rates remained volatile leading to ZWG devaluation by 42.55% by the Government to align with market exchange rate and restore confidence in the financial system. The Fund incurred losses on monetary investments, particularly arrear contributions, due to these currency fluctuations. Loss of value amounting to USD17.6 was incurred on ZWG contribution arrears by the Fund in 2024 from currency movements.

The RBZ further implemented monetary policy measures, including increased statutory requirements and tighter liquidity controls which curbed speculative activities and brought inflation under control. The month-on-month inflation declined from 37.2% in September 2024 to 3.7% in December 2024. The foreign exchange rate stabilized at ZWG 25.7980: USD 1 by year-end.

In response to these dynamics, the Fund implemented robust strategies to ensure operational sustainability and maintain good performance.

Dr. Herbert M Murerwa | Board Chairman

Zimbabwe's operating environment is shaped by a blend of challenges and opportunities, influenced by both global and domestic economic trends. Globally, geopolitical tensions, protectionism, and ongoing inflationary pressures are affecting trade and capital flows, with global GDP growth expected to slow from 3.2% in 2024 to 3.1% in 2025. However, Zimbabwe's economy is poised for a rebound, with projected growth of 6% in 2025, up from 2% in 2024, driven by a strong recovery in the agricultural sector (12.8%) and significant expansion in the mining sector (5.6%). This positive outlook is likely to boost market activity. Amidst these dynamics, the Fund remains committed to navigating the complexities while delivering value to our stakeholders.

2024 to 2028 strategy implementation

Despite the challenging economic environment, the Fund remained focused on its journey towards achieving 'Mudyandigere' - a milestone where the average pension payout reaches USD161.00 per pensioner,

with an average income replacement ratio of 54%. As of 2024, the Fund's average pension stood at USD 50.03, and the average income replacement ratio was 4.2%. To drive progress towards this goal, the Fund's strategic initiatives for 2024 were centered on three key areas:

- Sustainable Investing: Optimizing returns, adhering to ESG principles, and empowering members.
- 2. Enhancing Member Experience: Improving benefit levels, service delivery, and accessibility.
- Operational Sustainability: Strengthening risk management, ensuring compliance, enhancing operational efficiency, maintaining data integrity, and streamlining costs.

Throughout the year, the Board continued to align the Fund's operations with these strategic priorities, ensuring progress towards achieving Mudyandigere and delivering value to our members.

Financial results

Amidst a dynamic economic landscape in 2024, the Fund's financial performance remained resilient, showcasing its ability to adapt and thrive. Key financial results are summarized below

Description	2024 results (ZWG)	2023 results (ZWG)	Change %	Comment
Revenue	788.7 million	819.3 million	-3.73%	There was a loss of value on ZWG contribution arrears due to exchange rate depreciation. However, linking these arrears to USD will help preserve their value moving forward.
Expenditure	56 million	46.4 million	20.68%	Currency depreciation of 83.48% between April and September 2024 drove up prices.
Surplus	732.6 million	772.9 million	-5.2%	
Total Assets	2.08 billion	1.35 billion	54%	Notwithstanding a slowdown in growth momentum, the Fund still achieved a significant 54% growth rate for the year.
Cash inflow from contributions	346.7 million	322.2 million	7.6%	
Fund Return	118.3% (ZWG)	580.7% (ZWL)		The Fund's 2024 returns outperformed the rate of currency depreciation of 90.2% in 2024 (792.06%: 2023)

Investments

In 2024, the Fund prioritized optimizing investment returns by focusing on high-yielding investments that would hedge against currency depreciation. Key investment highlights include:

i. Investment property

The Fund continued to preserve value through strategic investments in property, completing the Marondera medical centre (to be operated by CIMAS) and progressing with the Victoria Falls hotel project (to be operated by the Fund through an International Management Agreement with Radisson Hotel Group under the Park Inn brand). Additionally, the Fund collaborated with ZESA Staff Pension Fund on the redevelopment of Lochinvar Warehouse (to be operated by National Foods). The Fund's exposure to investment property stood at 56%.

The Fund continued to defend its key property performance indicators, closing the year at 91% collection rate, 7.58% yield and 98% occupancy versus strategic targets of 80% collection rate, 5% yield and 80% occupancy respectively.

ii. Quoted shares

12% of the Fund investments were in quoted shares. The Fund earned a return of 108.41% vs. the Zimbabwe Stock Exchange All Share Index of 117.6% gain while return of 14.19% was earned on Victoria Falls Stock Exchange All Share against an Index of 4.09%.

iii. Unquoted shares

The Fund was 6% invested in unquoted shares through Mangwana Opportunities Fund. Mangwana Opportunities Fund is invested in mining and agriculture. Mangwana Opportunities Fund investments are made in local currency but invested in USD-generating assets, with a guaranteed annual return of 8% in USD terms. For 2024, the Fund achieved a return of 13.67%.

iv. Mortgages

Following exchange rate stability, the Mortgage facility was revived, and exposure closed the year at 1% of total Fund assets. ZWG20.2 million was availed for funding of the facility from August 2024 to July 2025 translating to mortgage facility of ZWG40.2 million.

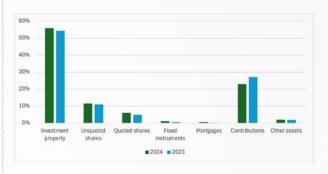

v. Fixed instruments

Investments in this asset class remain constrained due to unfavorable market conditions, as the Fund seeks to mitigate the risk of value loss from inflation. As of 31 December 2025, the Fund's exposure to fixed instruments stood at 1%, with 21% of these instruments invested offshore.

vi. Prescribed assets

As of 31 December 2024, the Fund's prescribed asset ratio at 21.74%, was compliant with the minimum regulatory requirement of 20% of the Fund's assets' fair value.

Asset allocation as of 31 December 2024

Contribution arrears

Non- payment of contributions has remained the key challenge for the Fund. As of 31 December 2024, contributions arrears represented 23% of total Fund assets. Though efforts to collect contributions have been ongoing, the Fund continues to struggle to collect the contributions, which has led to:

- The Fund being categorized as a "troubled entity "as more than 10% of Fund's assets were in arrear contributions.
- ii. Failure to fund critical projects and avail funding to the mortgage facility.
- iii. Noncompliance with exposure level of investments which require that investments with the employer should not exceed 10% of Fund value and payment of the contributions should be done by the 14th of the following month when contributions become due.
- iv. Loss of value on ZWG contributions arrears due to currency deterioration which have negatively impacted the replacement ratio currently at 4.2%.

Building on its 2024 efforts or engagements to index/link ZWG arrear contributions to USD for value preservation, the Fund has continued to engage with ZESA Holdings on the matter into 2025. These negotiations are at an advanced stage of being concluded. As of April 2025, the ZESA Holdings Finance Committee resolved to link/index arrear contributions to USD in order to preserve value with effect from 28 February 2023. The Fund now awaits for ZESA Holdings Board resolution on the matter.

Actuarial Assessment, pension increases and bonuses

Based on the historical results, the Fund generated 118.3% Fund return for the year 2024 versus currency deterioration of 90.2%. The Board approved a final pension increase of 15% to give a cumulative pension increase of 127.5% for the year 2024 way above currency deterioration of 90.2%.

The Board will continue to focus on ensuring sustainability of retirement income by investing in assets that hedge against inflation which would enable regular pension increases to be awarded. The Board is further cognizant that the country is in a multiple currency regime and as such, pensioners' income should reflect this position. This saw the continued payment of USD top up discretionary lump sum payments to pensioners on a monthly basis in line with Fund forex generation capacity.

During the year 2024, pension top up discretionary lump sums and pension increases were awarded monthly to ensure that the Fund returns are passed to members and pensioners before they are eroded by inflation. The pension benefit adjustments awarded were as follows:

Member category	Cumulative awards - year 2024	Cumulative awards - year 2023
Active members	Sub Account 1 - 169% Sub Account 2 - 79.4% Sub Account 3 - 9.3%	Sub Account 1 - 841% Sub Account 2 - 482.64% Sub Account 3 - 5.09%
Preserved members	169%	841%
Pensioners	127.5%	841%

Sub Account 2 continues to be negatively impacted by ZESA Holding's non-remittance of contributions, resulting in investment returns that are lower than inflation. As of 31 December 2024, the Fund had lost USD17.6 million since February 2023 due to late remittance of ZWG contributions. However, loss of value of ZWG contributions would be resolved on the implementation of linking/indexing ZWG contributions to USD to preserve value.

Despite earning a 9.3% USD return, Sub-account 3 faces challenges as most funds remain with the employer. Contributions arrears surged 155% to USD13.5 million in 2024, up from USD5.2 million in 2023. This poses a risk of benefit payment delays for members, given the funds are held by the employer. The 2024 collection rate stood at 9.4%.

Fund Membership as of 31 December 2024

Description	2024	2023
Actives	7216	7227
Principal Pensioners	794	783
Beneficiaries (spouses and children)	666	645
Total	8,676	8,655

The stable membership, coupled by increases in salaries, broadens the contribution base and puts the Fund in a better position for investment growth, however accumulation of arrear contributions negatively impacted the Fund Investment return.

Beneficiaries form an important component of the Fund, although they represent just a small percentage of the total membership.

Member Engagement.

Efforts to improve customer or member experience continued to be implemented during the year and are ongoing to ensure that members / pensioners easily access the Fund, experience improved service delivery and receive higher pension benefits.

Physical engagements were made in 2024 as part of national outreach.

Regular member education sessions provide our members with the opportunity to ask questions and allow the Fund to empower them to continuously make the right decisions. Fund Management will continue with these engagements to empower members to plan their retirement better.

In 2024 the Fund engaged members/pensioners through the following ways:

- 1. Fund website www.zeipf.co.zw
- 2. Fund WhatsApp: 0777 953 777
- 3. Emails: benefits@zesapf.co.zw
- 4. Fund Telephone: +263 242 252736-8 / 252764 / 252845
- 5. Circulars
- Conversation with the Principal Officer (Virtual, interactive sessions)
- 7. National Outreach Programs (Face to face)

Compliance

The Insurance and Pensions Commission (IPEC) introduced significant reforms, including the Insurance and Pensions Commission Amendment Bill gazetted in December 2024, which aligns industry practices with global standards. The following circulars were released in 2024.

Circular	Release Date	Content
Circular 1 of 2024	25 January 2024	Sectoral risk assessment to inform Zimbabwe's 3rd money laundering national risk assessment.
Circular 2 of 2024	30 January 2024	Actuarial Society of Zimbabwe Guidance note for S.I. 162 of 2024
Circular 8 of 2024	10 May 2024	Guideline on 2024 Currency Changes
Circular 10 of 2024	17 June 2024	IPEC AML/CFT/CPF Industry Training Calendar
Circular 11 of 2024	27 June 2024	Amendments to Currency Changes Circular 8 – Guideline on 2024
Circular 12 of 2024	02 July 2024	Guideline to funds on Conduct of Annual General Meetings.
Circular 13 of 2024	12 July 2024	Financial Intelligence Unit Directive on High-Risk Jurisdictions and Countries under Increased Monitoring for Terrorist Financing and Proliferation Financing of Weapons of Mass Destruction.
Circular 14 of 2024	05 September 2024	Financial Intelligence Unit Directive on Implementation of Targeted Financial Sanctions.
Circular 15 of 2024	12 November 2024	Standard for the Establishment and Registration of Pension and Provident Funds
Circular 16 of 2024	24 October 2024	Financial Intelligence Unit Directive on Civil and Administrative Penalties on Infringement of the Money Laundering and Proceeds of Crime (MLPC) Act
Circular 17 of 2024	12 November 2024	Call to Update Institutional Risk Assessments
Circular 18 of 2024	27 November 2024	Insurance and Pensions Commission Transition to Risk Based Supervision
Circular 19 of 2024	27 November 2024	Amendment to the Risk Management and Corporate Governance Guideline for Pension Funds
Circular 20 of 2024	11 November 2024	Amendments to Treating Customers Fairly Framework
Circular 21 of 2024	21 November 2024	Invitation to Participate in Digital Transformation Assessment
Circular 22 of 2024	18 November 2024	Registration of Financial Statements Preparers with PAAB
Circular 23 of 2024	12 December 2024	Implementation Plan for the Zimbabwe Mortality Tables: Key requirements and timelines

Contribution arrears non-compliance

Non-compliance with contribution payments persisted, though efforts by Fund Management and the Board to collect contributions has been ongoing. According to regulations, contributions should be remitted by the 14th day of the following month, but ZESA Holdings and its subsidiaries have consistently fallen short of this requirement. This has resulted in the Fund's contribution arrears exposure at 23% exceeding the 10% limit set by IPEC.

The Fund Board and Management continue to work with ZESA Holdings and IPEC to address contribution payment issues. As of June 2025, a payment plan to clear arrears over 12 months was submitted by ZESA Holdings to the Fund. The Fund's 2024 collection rates were 61.3% for ZWG contributions and 9.87% for USD contributions.

The Board, through the Audit, Risk and Compliance Committee, continue to monitor all non compliance issues and mitigation measures being implemented to address them.

Board Members

In 2024, the Board underwent some transformation, with Eng E.A. Ncube, Mr. S. Chikwasha, Mr. V. Vudzijena, Eng G. Tsumbalagwa, and Mr. D.N. Chiradza retiring with effect from 31 May 2024.

They were succeeded by Dr. H. M. Murerwa, Mr. B. Ndlovu, Ms. P. Mbuta, Eng. Y. Mufambi, and Mr. S. Mkanganwi with effect from 1 June 2024. The Board extends its heartfelt appreciation to the outgoing members for their dedicated and distinguished service.

Sustainability

Sustainability is at the heart of the Fund's strategy and operations. Our investments prioritize sustainability, embedding best practices across all our projects to ensure a positive impact. As part of its commitment to sustainability, the Fund is factoring climate change into its investment property developments, drawing on expertise from various experts to guide its approach

Outlook

In line with the authorities' tight monetary and fiscal policies, the macroeconomic environment is projected to remain steady. While this may lead to short-term economic constraints, the benefits of stability, certainty, and increased investment will drive long-term growth. The Fund has adjusted its strategy to prioritize risk management, sustainability, and value preservation. By leveraging on opportunities in high-growth sectors and ensuring business resilience, the Fund is well-positioned to protect and grow members' assets, delivering on its promise of a secure retirement.

To safeguard value for members and pensioners, the Fund has a pipeline to create strategic high yielding assets. Notably, the Victoria Falls 4-star hotel, slated for development over the next three years, will be operated by Raddison Hotel Group and is expected to break ground in Q4 2025. Additionally, the Fund is diversifying its portfolio by venturing into solar energy, further spreading its investments across various sectors.

The Fund is passionate about continuously enhancing member experience. The Board is confident in the Fund's resilience, thanks to its diversified investments, talented team, trusted advisors and above all patience from members. We're dedicated to achieving the best possible outcomes for our members and beneficiaries.

Appreciation

I would like to express my deepest gratitude to the Board, management, and staff for their outstanding efforts and dedication. Additionally, I thank our valued members and pensioners for their continued patience, service providers, and stakeholders for their loyalty and trust in the Fund.

Dr. Herbert M Murerwa

Board Chairman

As any one

GENERAL MANAGER / PRINCIPAL OFFICER'S REPORT

Dear Member,

I am pleased to share the Fund's financial results for the year ended 31 December 2024, which reflect our ongoing commitment to delivering a secure retirement future for our members.

Financial results

The Fund's financial results demonstrate its ability to thrive despite challenges, with a year-end surplus of ZWG734 million, compared to ZWG773 million in 2023. The last quarter of 2024 saw ZWG contribution arrears earning a return of 8.75%, exceeding the 3.7% currency depreciation rate which was witnessed as a result of currency stability. Contribution income and investment returns were the main drivers of the surplus.

The Fund's real asset exposure grew to 74% in 2024, reflecting a steady increase from 71% in 2023, due to continued investment in investment property. The remaining 26% of Fund assets were in arrear contributions (23%) and other assets (3%). The Fund total assets grew by 54% to ZWG2.08 billion in 2024 from ZWG1.45 billion in 2023.

Performance against 2024 Strategic Plan

The Fund in 2024 was focused on:

i. Optimising investment yield Investment property

The Fund was focused on investing in high yield assets that preserve value. Notable projects worked on in 2024 included:

- a. Marondera Megawatt medical center, which was completed in 2024 to be operated CIMAS. Target return of 8% per annum in USD terms will be achieved.
- b. Construction of the Victoria Falls 4-Star Hotel continued into 2024, with a focus on water and electricity infrastructure. However, Cresta, the original tenant, withdrew from the project due to divergences over rentals. The Fund subsequently partnered with Radisson Hotel Group (RHG), and the hotel will now operate under the Park Inn brand. Ground breaking is scheduled for Q4 of 2025 and expected to open doors on the 31st of December 2028. Return is targeted to stabilize at 16% per annum in USD terms from year three onwards after opening doors.
- c. Lochinvar Warehouse redevelopment The Fund collaborated with ZESA Staff Pension Fund to redevelop the latter's dilapidated warehouse. Upon completion, National Foods will occupy the warehouse, paying USD rent with a target annual return of 8% in USD terms.

Bright Kondo | Principal Officer

GENERAL MANAGER / PRINCIPAL OFFICER'S REPORT (CONTINUED)

The investment property portfolio was closely managed to ensure rental income is aligned with market rates thereby maximizing returns. The Fund also focused on increasing USD rentals and achieving 100% collection, driving Fund performance. This led to:

- a. The proportion of USD rentals increasing from 57% of total rental income in 2023 to 68% by the end of 2024, reflecting a significant increase in foreign currency- denominated earnings.
- b. The Fund achieving:
- Rental yield of 7.58% versus a market average of 5%,
- Rental collection rate of 91% versus market average of 68%, and
- Occupancy rate of 98% versus market average of 89%.

Contributions

One major headwind which the Fund faced is non-payment of contributions. Discussions with ZESA Holdings regarding contribution remittances to the Fund are ongoing. Fund Management and the Board have continued to engage both ZESA Holdings and the regulator, Insurance and Pension Commission (IPEC) to ensure that the challenge of contributions collection is resolved. These engagements have led to the ZESA Holdings in June 2025 giving the Fund a payment plan for settling contribution arrears. The plan has a commitment to pay current contributions in full and clearing the arrear contributions over a 12-month period.

The Fund collected 61.3% of ZWG contributions and 9.87% of USD pension contributions in 2024, representing a notable increase from the 9.4% collection rate in 2023. However, despite the improvement in the collection rate the Fund remained:

- a. Non-compliant with the exposure level of contribution arrears at 23% was above the IPEC limit of 10%.
- b. The top contributor to contributions arrears in the market. ZEIPF as of 31 December 2024 contributed 40.7% of the total contribution arrears of stand-alone pension funds. This position has resulted in the Fund being labelled as a "troubled entity" as it has contributions being owed of more than three months and being more than 10% of the total assets.

The low collection rate has not only caused noncompliance but slowed down the rate of investments being made by the Fund and caused loss of value to members due to currency deterioration. The Fund proposed to ZESA Holdings to link or index contribution arrears to USD as a measure to hedge against loss of value on the ZWG contribution arrears. The ZESA Holdings' Finance Committee in April 2025 approved this proposal to link ZWG arrears to USD with effect from 28 February 2023. The Fund is yet to receive ZESA Holdings Board resolution on the matter.

The impact on the Fund, as of 31 December 2024, on linking or indexing ZWG arrear contributions to USD is tabulated below:

	Unlinked position	Linked position	Value preservation
Outstanding contributions ZWG	128,081,893	583,231,086	455,149,193
Equivalent ZWG Outstanding contributions in USD	4,964,703	22,607,170	17,642,467

Offshore investments

To mitigate currency risk, the Fund invested in Trade and Development Bank's fixed instruments, an offshore investment. The Fund target is to allocate 5% of the Fund's value to offshore investments. The investments are earning a return of 8.09% per annum. Investment into this asset class remains subdued due to lack of funding as a result of non-payment of USD contributions. In 2024 only 9.4% of USD contributions deducted from members were collected.

ii. Enhance member experience

The Fund target is to improve level of benefits to an average of USD161 per month as well as good service delivery. Several initiatives were implemented during the year to improve member experience. These initiatives included:

- a. Engagement of members through outreach sessions at various workstations.
- b. Monthly pension increases to ensure value is passed to members before it is eroded by inflation. A cumulative pension increase of 127.5% was awarded in 2024, versus the currency deterioration rate of 93.6%.
- c. Refreshed the mortgage loans facility.

With the bulk of the Fund members still in active service (as tabulated below) it is critical that initiatives aimed at this category drives positive outcomes.

	20	24	2023			
	Number	%	Number	%		
Actives	7,216	83%	7,227	83%		
Principal pensioners	794	9%	783	10%		
Beneficiaries (spouses and children)	666	8%	645	7%		
Total	8,676	100%	8,655	100%		

GENERAL MANAGER / PRINCIPAL OFFICER'S REPORT (CONTINUED)

Mortgage loans facility

The Board revamped the mortgage loans facility in August 2024, following local currency stability. Through partnerships with NMB and NBS, the Fund provides 50% funding, with the banks contributing the remaining 50%. This initiative includes a micro-mortgage scheme for members for properties without title deeds. With ZWG20.2 million in funding availed into the scheme, the facility has grown to ZWG40.4 million, and 118 members have accessed loans since August 2024.

Contribution collection constraints continue to limit investment in the mortgage loans facility, resulting in a growing waiting list. As of 30 June 2025, 108 members were awaiting access. As part of its strategic initiative, the Board has set a target for the Fund to invest 10% of the contributions collected in the mortgage loan scheme.

iii. Operational sustainability

The Fund remains focused on cost management, ensuring expenses stay within the 15% regulatory threshold of collected contributions. As of 2024, our expense ratio stood at 9.14%, well within the limit.

Compliance with circular 8 of 2024 – Guidelines on currency changes

Following the change in currency from ZWL to ZWG on 5 April 2025, the Fund guided by statutory instrument issued by RBZ and circular 8 of 2024:

- a. Carried a financial review as of 5 April 2024 and
- b. Carried an interim audit as of 30 June 2024.

The above exercises were aimed at ensuring Members benefits were properly accounted for on currency change.

Sustainability

At the heart of our operations is a commitment to sustainability and responsible investment. As stakeholders focus on ESG grows, we're dedicated to aligning your investments with these principles, ensuring your portfolio is both sustainable and future-fit. This commitment will be reflected in our increasing involvement in green energy initiatives, driving long- term value for our members and pensioners.

Our investment approach prioritizes not only returns for our members but also community impact, focusing on job creation and economic empowerment in the communities where we operate.

Industry trends

The inflationary pressures have severely diminished the purchasing power of pension benefits, leaving many retirees struggling to make ends meet due to payouts that no longer align with the actual cost of living. This issue is a pressing concern for both current pensioners and active contributors.

The industry is responding by payment of USD payouts though they are not adequate to restore value or in line with complexion of transactions on the market.

The Insurance and Pensions Commission (IPEC) is actively working on reforms to improve compliance, transparency, and governance in the sector. This includes efforts to ensure pension funds are better managed and more aligned with member interests.

There is a slow but steady shift toward digital platforms for pension administration and member engagement. This includes online portals for contributions, benefit tracking, and communication, although adoption is still in early stages.

Outlook and appreciation

Looking ahead, the Fund will focus on:

- a. Collection of both ZWG and USD contributions.
- b. Concluding the linking or indexing of contribution arrears.
- c. Maintaining the investment property to ensure future fit.
- d. Completion of Lochinvar Warehouse, Development of Victoria Falls Park Inn by Raddison Group.
- e. Monthly reviews of pension payments in line with the return generated by the Fund.
- f. Funding of the mortgage loan facility to clear the backlog.

I am grateful for the tireless efforts of our Board, Management, and staff, who have demonstrated remarkable dedication and expertise in navigating the complexities of our industry. Their passion for delivering exceptional customer experiences and driving innovation continues to propel your Fund forward.

Bright Kondo Principal Officer

CORPORATE GOVERNANCE STATEMENT

ZEIPF is committed to sound corporate governance principles as laid out in the King IV code, National Code on Corporate Governance in Zimbabwe, and guidelines from IPEC. The Board notes the need to conduct Fund affairs with principles of transparency, integrity, and accountability and in accordance with generally accepted corporate governance practices, in the interests of its members, employees and other stakeholders. This ensures that Fund members and other stakeholders have the assurance that the Fund is being managed ethically, according to prudently determined risk parameters and best practices towards protecting and adding value to members' Fund values.

The Board's Code of Conduct, the Board Charter, the Pensions and Provident Funds Act [Chapter 24:32] are available for the Board to refer, regarding their fiduciary duties and obligations.

The Board's evaluation exercise is carried out annually.

Board Responsibility

The Board's primary responsibility is to discharge its fiduciary responsibility to the Fund members. The Board meets quarterly to monitor management performance and ensure proper control over the Fund's strategic direction.

The Board is aware that they take independent professional advice at the Fund's expense, if necessary, for the furtherance of their duties.

Board composition

The Board is composed of nine board members made up of four (4) Employer appointed board members, three (3) Member elected board members, one (1) Pensioner elected board member and (1) independent board member. The Board outsources skills it believes are not sufficiently represented with the skills and experience of the Board, yet necessary to achieve the Fund's goals.

The Board reconfigured its composition in 2024 which saw the appointment of an independent board expert member.

Nomination of Board Members

The Fund is guided by the Fund Rules in the appointment of Board Members. The rules state that employer board members are appointed by the employer while member board members are elected by members.

Strategic Planning Process

The Board meets annually to discuss and set the strategic initiatives of the Fund on a 5-year rolling period.

Board Committees

The Board has the following Committees that assist in the discharge of its responsibilities:

i. Audit, Risk and Compliance Committee (ARCC).

The ARCC meets at least once per quarter and is responsible for:

- The integrity of the Fund's financial statements and the effectiveness of governance systems, risk management and internal control, and for monitoring the effectiveness and objectivity of internal and external auditors.
- Monitoring consistency of the Fund's accounting policies.
- Reviewing the scope of work of internal auditors and the planning memorandum for external auditors.
- Recommendation of the appointment, and fees of both internal and external auditors who have unrestricted access to it.
- Assisting the Board in fulfilling its corporate governance oversight responsibility regarding the identification, evaluation, and mitigation of operational, strategic, and external risks.

The Board is satisfied with the level of experience and competence of committee members.

ii. Finance, Investments and Procurement Committee (FIPC)

This Committee meets at least once per quarter and:

- Considers management recommendations regarding investment opportunities in various asset classes.
- Reviews the performance of the Fund and the actuarial recommendation for pension increases and bonuses.

The Board is satisfied with the level of experience and competence of committee members.

iii. Human Resources, Remuneration, Legal and Benefits Committee (HRRLBC)

The Committee meets at least once per quarter and:

- Handles any legal issues for the Fund and the review of members/ pensioners benefits.
- Considers Fund staff remuneration issues, oversees the recruitment of high-level positions and conditions of service.

The Board is satisfied with the level of experience and competence of committee members.

RISK MANAGEMENT.

Risk management approach

The Fund developed an enterprise risk management framework in line with ISO 31000 International Risk Management Standards. The Fund risk management approach is based on the Enterprise Risk Management Model which involves all levels of management in identifying and managing risks affecting the Fund. The Fund's Audit, Risk and Compliance Committee (ARCC) is responsible for monitoring the Fund's risk management processes and providing oversight over implementation of risk mitigation measures.

Management of risk is at the heart of our business planning processes and is core to achieving our strategic goals. The Board is responsible for risk management and internal controls at the Fund. It discharges its responsibility through the Audit, Risk and Compliance Committee. The Board provides guidance on tolerable risks, risk appetite, and the adequacy of prevailing controls in managing risks while executive management is responsible for the implementation of the risk management framework.

^{**} Joined during the year.

CORPORATE GOVERNANCE STATEMENT (CONTINUED)

Top 5 Fund's risk exposures

The following were the key strategic risks the Fund faced in 2024 and the mitigation measures in place to reduce their impact to attain the strategic objectives.

Risk Subcategories and description	Inherent	Mitigation Measures	Residual
Funding risk Continued non remittance of contributions by the ZESA Holdings.		 Continued engagement of ZESA Holdings to conclude on linking and collect contributions. Use base case scenario in planning and do strategy on the probable scenario. 	
Market risk i. Risk that the Funds will continue to be negatively impacted by exchange rate depreciation. ii. The risk that Fund may not earn real returns and returns above 8% in USD. The risk of continued losses resulting from RBZ rate and alternative market exchange rate gaps, i.e., the Fund receives income at an official rate and deploys it at agreed rates.		 Continue with active equity management strategies. Ensure monthly pension reviews and passing on of bonuses to members. Ensure that all investment decisions factor market risk analysis through following decision quality steps. 	
Currency risks – The risk that the Government of Zimbabwe will implement mono currency which will result in loss of value on monetary financial assets if not done properly.		 Continue with strict cashflow management ensuring that the Fund holds no cash assets either USD or local currency. Invest in assets that hedge against currency depreciation and inflation. 	
Regulatory risk/ Country risk – risk of: i. Possible policy pronouncements or changes that affect the operating environment, i.e., fiscal and monetary policies. Possible future regulations about ESG.		 Invest within the IPS limits to reduce concentration risk. Continue considering ESG factors in all the investments, integrated reporting, pension payments, administration and human resources activities of the Fund. 	
Private Equity risk – risk of loss of value from the private equity such as governance risk, liquidity risk, failure in underlying operations and loss of control on assets		 Limit the exposure to private equity to the IPS limit even they seem to be performing. Ensure periodic assessment of the private equities. 	

THE BOARD RESPONSIBILITY STATEMENT

The Board is responsible for the preparation and fair presentation of these financial statements, in accordance with the basis of preparation applicable to retirement funds in Zimbabwe and the provisions of the Pension and Provident Funds Act (Chapter 24:32) of Zimbabwe, as set out in the statement of accounting policies, and for such internal control as the Board members determine is necessary to enable the preparation and presentation of the financial statements that are free from misstatement, whether due to fraud and/or error.

The Board is also responsible for the system of internal controls. These are designed to provide reasonable, but not absolute, assurance as to the reliability of the financial statements, and to safeguard, verify and maintain accountability of assets and prevent and detect material misstatements and losses. The systems are implemented and monitored by suitably trained personnel with an appropriate segregation of authority and duties. Nothing has come to the attention of the Board to indicate that any material breakdown in the functioning of these controls, procedures and systems has occurred during the year under review.

The financial statements comply with the basis of preparation applicable to retirement funds in Zimbabwe and the provisions of the Pensions and Provident Funds Act (Chapter 24:32) of Zimbabwe. The Fund's independent external auditors, AMG Global Chartered Accountants, are responsible for reporting on the fair presentation of the annual financial statements and their report appears on page 18 and 19.

The financial statements are prepared on a going concern basis. Nothing has come to the attention of the Board to indicate that the Fund will not remain a going concern for the foreseeable future.

The financial statements set out on pages 20 to 39 were approved by the Board of the Fund on 27 of March 2025 and are signed on its behalf by:

Approval of financial statements:

As One One

Board Chairman

Pessad

Principal Officer

MS-W

Board Member

Opinion

We have audited the financial statements of the Zimbabwe Electricity Industry Pension Fund, "ZEIPF"/ "the Fund", set out on pages 20 to 39, and comprising:

- · Statement of changes in net assets available for benefits for the year ended 31 December 2024;
- Statement of net assets available for benefits as at 31 December 2024;
- · Statement of cashflows for the year ended 31 December 2024;
- Membership Statistics as at 31 December 2024;
- · Statement of accounting policies applied by the Fund during the year; and
- Related financial statement notes.

In our opinion, the Fund has complied in all material respects with the accounting policies as set out in the notes to the financial statements and the basis of preparation applicable to retirement funds in the manner required by the Pension and Provident Funds (Amendment) Regulations, 2020 (No. 25), Statutory Instrument 91 of 2020 and the Insurance and Pensions Circular 26 of 2020, 20 of 2021, 34 of 2022, 8 of 2023 and 8 of 2024.

Basis of opinion

We conducted our audit in accordance with International Standards on Auditing ("ISAs"). Those standards require that, in conducting the audit, we comply with ethical requirements. The standards also require that we plan and perform the audit to obtain reasonable assurance as to whether the financial statements are free from material misstatement. We are independent of the Fund in terms of the Institute of Chartered Accountants of Zimbabwe ("ICAZ") Code of Professional Conduct, which is consistent with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We consider it that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

Without qualifying our opinion, we draw attention to the following:

Outstanding contributions

The sponsoring employer has outstanding contributions amounting to ZWG 476 548 785 (2023: ZWG366,815,760) due to the Fund as at 31 December 2024, in contravention of the Fund Rules, which require

contributions to be paid by the 14th of the following month when they become due to the Fund.

Key audit matters

Key audit matters are those in our judgement, that were of most significance in our audit of the financial statements. Key audit matters are selected from matters communicated with those charged with governance but are not intended to represent all matters that were discussed with them. There were no key audit matters identified for the audit of the Fund.

Board Members' responsibility for the financial statements

The Fund Board is responsible for the preparation and fair presentation of these financial statements, in accordance with the basis of preparation applicable to retirement funds in Zimbabwe and the provisions of the Pension and Provident Funds Act (Chapter 24:32) of Zimbabwe. This responsibility includes, but is not limited to the following:

- designing, implementing and maintaining internal controls that ensure the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error;
- formulating and applying appropriate accounting policies; and
- making accounting estimates that are reasonable in the Fund's circumstances.

In preparing the financial statements, the Board is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and issue an auditor report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
 - Conclude on the appropriateness of the Administrators' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content
 of the financial statements, including the disclosures, and
 whether the financial statements represent the underlying
 transactions and events in a manner that achieves fair
 presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information of the Fund to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Restriction on use

These financial statements are prepared for regulatory purposes in accordance with the accounting requirements of the Pension and Provident Funds Act (Chapter 24:32) and Statutory Instrument 323 of 1991 as stated under the basis of preparation policy note paragraph. Consequently, the financial statements and related auditor's report may not be suitable for another purpose.

The Engagement Partner on the audit resulting in this independent auditors' report is Tariro Mhuka (PAAB number 0423).

STATEMENT OF ACCOUNTING POLICIES

For the year ended 31 December 2024

A REGISTRATION AND ACTIVITIES

The Zimbabwe Electricity Industry Pension ("the Fund"), is registered in terms of the Pensions and Provident Funds Act (Chapter 24:32), as a self-administered defined contribution Fund, set up for the purpose of providing pension benefits to its members on retirement or the members' beneficiaries in the event of death. The Fund was established on the 4th of February 2004 in Zimbabwe and caters for members employed by Companies operating in the Electricity Industry in Zimbabwe. The employer and employees contribute into the fund at rates of 21.25% and 6% of basic pay respectively. However, employees have also option to contribute at 8% and 10%.

During the year there were no changes to the Fund Rules.

B STATEMENT OF COMPLIANCE

The financial statements have been prepared in accordance with the preparation applicable to retirement funds in Zimbabwe and the provisions of the Pensions and Provident Funds Act (Chapter 24:32) of Zimbabwe.

These financial statements have been prepared in compliance with Circular 34 of 2022, issued by the Insurance and Pensions Commission on 12 August 2022, in terms of Section 3 (1) of the Insurance and Pensions Commission (Issuance of General Guidelines and Standards) Regulations, 2020, published in Statutory Instrument 69 of 2020.

In 2020, The Commission issued Circular 20 of 2020, which required all Pension Funds to adopt International Financial Reporting Standards (IFRS), and this was done in 2021. However, this presented noncompliance instances and inconsistencies in disclosures within the Industry, thereby necessitating the issuance of Circular 34 of 2022, being a revised financial reporting guideline for the Pensions Industry, which is effective from financial statements for the year 31 December 2022.

ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below.

C FUNCTIONAL CURRENCY

Conversion from ZWL to ZWG

Following the Monetary Policy Statement of 5 April 2024, the Government of Zimbabwe issued a Statutory Instrument (SI) 60 of 2024 which formalised the Reserve Bank of Zimbabwe (RBZ) (Central Bank's) introduction of a structured currency called the Zimbabwe Gold (ZWG). With effect from 5 April 2024, Banks were required to convert the previously existing Zimbabwean Dollar (ZWL) balances into ZWG. The new currency is co-circulating with other foreign currencies in the economy. The swap rate on 5 April 2024 was ZWG 1: ZWG 2 498.7242 as guided by the closing interbank exchange rate and the price of gold as at that date. This swap rate was used to make legitimate conversions of all ZWL balances into ZWG.

The prior year comparatives in these financial statements were also converted using a rate of ZWG1: 2 498.7242 for comparison purposes, after taking into account the effects of inflation..

D VALUATION OF FUND ASSETS

Investment assets are valued at fair value except debt instruments held to maturity which are to be held at amortised cost.

Marketable securities / financial instruments, bid price at the end of the reporting period shall be the value recognised.

Property is valued using the functional currency applicable to the Fund, that is for Sub Fund A valuation is done in ZWG for local properties and for Sub Fund B, valuation is done in USD.

E VALUATION OF ACTUARIAL LIABILITIES

Actuarial liabilities are valued using the current period's actuarial valuation report or financial review report.

F INCOME AND EXPENSES

The accrual method should be used when accounting for income and expenses.

STATEMENT OF ACCOUNTING POLICIES (CONTINUED)

For the year ended 31 December 2024

G TAXATION

In terms of the Third Schedule to the Income Tax Act (Chapter 23:06), pension funds are exempt from income tax, capital gains tax and residents' tax on interest from financial institutions until such date as the Minister may specify by notice in the Gazette. As no such notice has been gazetted in respect of the year covered by these financial statements, no provision for taxation has been made.

H IMPAIRMENT OF ASSETS

The Pension Fund assesses at each end of the reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the pension fund estimates the recoverable amount of the asset.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash- generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount.

That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in profit or loss. Any impairment loss of a revalued asset is treated as a revaluation decrease.

The Fund assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets other than goodwill may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset other than goodwill attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation other than goodwill is recognised immediately in profit or loss. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

I REVENUE

The Fund recognises revenue from pension contributions resulting from employees' employment contracts.

Revenue is measured based on the contributions specified in employment contract with an employee and excludes amounts collected on behalf of third parties. The pension fund recognises revenue when employment services are provided to employers.

Other sources of income that the Pension Fund has are:

- dividend income
- · interest income
- profit on disposal of financial assets

J ACTUARIAL VALUATION

There is no requirement to carry out an actuarial valuation of the Fund, as it provides benefits on a defined contribution basis, though an annual financial review is carried out by the actuaries.

K CASH AND CASH EQUIVALENTS

For the purpose of presentation in the statement of cash flows, cash and cash equivalents include cash on hand and money market deposits with financial institutions which are subject to an insignificant risk of change in value.

There are no current obligations to purchase, construct or develop the investment properties.

The fair value of the Fund's investment property as of 31 December 2023 has been arrived at on the basis of a valuation carried out at that date by Integrated Properties, independent valuers not concerned with the Fund. The valuation conforms to International Valuation Standards. The fair value was determined based on the market approach that reflects recent transaction prices for similar properties.

PRESCRIBED ASSET INVESTMENTS

31 December 2024

6.2 Compliance ratio

The provisions of Section 18(2a) of the Pension and Provident Fund Act (Chapter 24:32) state that any registered Pension Fund shall hold not less than 35% of the aggregate cost value of all their investments in Zimbabwe in local registered securities. However, in the National Budget presented on 22 November 2018 and circular 3 of 2019 of the Insurance and Pensions Commission, the Government reviewed the prescribed asset ratio to 20% of the market values of assets, and thus was effective beginning 1 January 2019.

At 31 December 2024 the market values of assets were as follows:

6.2 Compliance ratio

Prescribed assets

Total assets less outstanding contributions

RATIO

349 236 167 1 606 372 208 **21.74**%

The Prescribed asset ratio based on market values as at 31 December 2024 was 21.74% (2023: 14.38%). The Pension Fund has adhered to this statutory requirement as at 31 December 2024.

16 FINANCIAL VALUATION

The Board finds it prudent to carry out a financial review of the Fund to:

- (i) Assess the Fund's financial position.
- (ii) Recommend a pension increase to be made to pensions in payment from the Fund.
- (iii) Recommend an interest rate to be credited to each member's account as at financial year end.
- (iv) Recommend the interim interest rate to be applied for claim payments in the following year.

The financial review carried out in line with IPEC guidelines as at 31 December 2024 revealed that the Fund was in a financially sound position with a surplus of ZWG588 085.

The financial review indicated that the Fund earned a return of 118.3% for Sub Fund and 9.6% for Sub Fund B. The Actuary recommended for a pension increase of 15% after taking into account the pension increases and bonuses awarded during the year as detailed below:

	June	September	Cumulative
Pension increase awarded	7.24%	84.5%	97.8%

During the year pensioners received pension lumpsum translating to 18.9% increase. Overall pensioners between 5 April 2024 and 31 December 2024 received a cumulative increase of 135.1%.

The final bonus awarded were as follows:

RELATED FINANCIAL STATEMENT NOTES (CONTINUED)

31 December 2024

17 INVESTMENT POLICY STATEMENT

The Insurance and Pensions Commission (IPEC) issued Circular 1 of 2016 which allowed organisation to register their Investments Policy Statements (IPS) with investment guidelines. The Fund registered its IPS with IPEC and investment guidelines are as follows:

Asset class	Strategic allocation	Tolerance Range
Listed share	30%	25% - 35%
Fixed property	40%	35% - 45%
Bonds	10%	5% - 10%
Alternative investments	10%	7.5% - 10%
Money market	5%	5% - 7%
Offshore	5%	3% - 5%

As at 31 December 2024 the Pension Fund was not in full compliance with this Circular.

18 COMPLIANCE WITH IPEC REGULATIONS

The Fund in ensuring compliance with the currency guidelines measured assets at fair value at the measuring date of 31 December 2019. The Fund created Sub Account 1, Sub Account 2 and Sub Account 3 to comply with the currency guideline. Assumptions were made in allocating transactions that could not be directly allocated to Sub Account 1 and 2. The Fund started to receive USD contributions in 2023 thus Sub Account 3 amounts do not have 2022 comparative figures

During the year there were no fines and penalties levied against the Fund for non-compliance.

19 GOING CONCERN

The Board has, at the time of approving the financial statements, a reasonable expectation that the Fund has adequate resources to continue in operational existence for the foreseeable future. It is on this basis that the financial statements are prepared on a going concern basis.

ACTUARIAL VALUATION

As of 31 December 2024

1. EXECUTIVE SUMMARY

Background

1.1. We have carried out an Actuarial Valuation of the Zimbabwe Electricity Industry Pension Fund ('the Fund') as at 31 December 2024 in line with your instructions.

Year-end Actuarial Valuation 31 December 2023

- 1.2. The results of the exercise revealed that the Fund was financially sound with a surplus of ZWL\$383 916 327 364 split ZWL\$189 943 638 653 in Sub Fund 1, ZWL\$188 695 668 704 in Sub Fund 2 and ZWL\$5 277 020 007 in Sub Fund 3 before recommendations, due to positive returns earned on assets held.
- 1.3. We recommended that Board members award the following bonuses to maintain financial soundness at the review date. We have been advised that these were adopted and implemented by the Board members.

	Bonus	Comments
Sub Fund 1	841.00%	Cumulative
Sub Fund 2	482.64%	Cumulative
Sub Fund 3	43.61%	Cumulative
Pension increase	77.73%	Additional
Pension reserve inc	841.00%	Cumulative
Preserved	841.00%	Cumulative

Table 1: Recommended bonuses as at 31 Dec 2023

Currency Conversion 05 April 2024

- 1.4. The government of Zimbabwe issued Statutory Instrument 60 of 2024 where all Assets and Liabilities that were, immediately before the effective date, valued and expressed in Zimbabwe dollars, shall be deemed to be values in Zimbabwe Gold (ZWG). The ZWL was converted to ZWG using the rate ZWG 1: ZWL\$2 498.724.
- 1.5. We carried out a Currency Conversion Actuarial Valuation of non -USD account of the Fund as at 05 April 2024 as per Section 48 of the new Pension and Provident Fund Act [Chapter 24:32].

As of 31 December 2024

Summary of results

1.6. The financial position of the Fund as at 05 April 2024 after implementing the bonuses as per paragraph 1.8 is as shown below:

Table 2: Financial position as at 05 April 2024

- 1.7. The results revealed that the Fund was financially sound with a surplus of ZWG 3 730 877.
- 1.8. The bonuses approved as at 05 April 2024 are as follows.

	Bonus	Comments
Sub Fund 1	300.45%	Cumulative
Sub Fund 2	166.18%	Cumulative
Pension increase	59.60%	Additional
Pension reserve inc	300.45%	Cumulative
Preserved	300.45%	Cumulative
T 1 1 0 D 1 1 1 1 1 1 0 E A	" 000 4	

Table 3: Recommended bonuses as at 05 April 2024

- 1.9. Effective 05 April 2024, the Fund has Sub Fund A which relates to accumulated credits and contributions in ZWG and Sub Fund B which relates to Accumulated Credits in respect of all contributions made from May 2023 in foreign currency (USD).
- 1.10. This means that for the non-USD account the review period is from 06 April 2024 to 31 December 2024, whilst for the USD account, the review period is 1 January 2024 to 31 December 2024.

The Economy

- 1.11. The growth of the Zimbabwean economy in 2024 can be attributed in part to the country being selected as the host nation for the 2024 SADC summit. The influx of international delegates and the associated economic activities played a pivotal role in driving growth and enhancing Zimbabwe's economic standing in the region.
- 1.12. Regardless, the Zimbabwe Gold currency faced a staggering decline, with its exchange rate plummeting from USD1: ZWG 13.56 on the 5th of April to USD1: ZWG 25.79 on the 31st of December, resulting in an 90.2% currency depreciation.

As of 31 December 2024

- This rapid devaluation raises serious concerns about the currency's stability and the overall economic health of Zimbabwe. Such a drastic shift not only undermines confidence in the currency but also exacerbates inflationary pressures, making everyday goods and services increasingly unaffordable for the population.
- The All-Share Index saw a remarkable increase of 117.58%, rising from 100.00 points on April 5 to 217.58 points as of December 31, 2024. With the Victoria Falls All Share Index closing the year with a value of 104.09, highlighting a 6.72% increase from April 2024
- This increase in the All-Share Index made a positive impact on the funds' performance by boosting the value of its equity holdings, improving its funding status, and increasing overall investment returns.
- 1.16. The Fund's property portfolio increased by 175%. This means that the property portfolio outperformed the depreciation of the local currency by 45%.
- 1.17. The Fund's cash and money market portfolio increased by 103%.
- 1.18. The Fund earned a return of 118.3% over the period. This means that the Fund performed above the depreciation of the local currency by 14.8%, therefore, members of the Fund have gained almost 14.8% of the real value of their investments over the review period.
- This must however be viewed with care as the non-official depreciation is much higher since the parallel currency exchange rate was 1.19 trading at around ZWG 40.00, implying a depreciation of 195% which could mean negative real returns.

Summary of results

Sub Fund A (ZWG)

- 1.20. The review period is from 06 April 2024 to 31 December 2024.
- 1.21. Sub Fund A consist of Sub Fund 1 which relates to contributions made pre 2019 and Sub Fund 2 which relates to contributions made post 2019.
- 1.22 Note that we have maintained the split of Sub Fund A into Sub Fund 1 and 2 given the high exposure to cross-subsidy risk due to nonpayment of contributions.

ZWG Assets

- 1.23. The total ZWG assets of the Fund as per the Financial Statements provided amounted to ZWG 1 698 704 449 as at 31 December 2024.
- The net assets backing liabilities after deducting non-pension related liabilities are ZWG 1 693 355 797 split ZWG 1 686 912 148 in Sub Fund A and ZWG 6 443 649 in the Stabilization Account.
- Based on the average assets held over the period from 06 April 2024 to 31 December 2024, and the total net investment income of the Fund the return earned on the ZWG assets amounted to an average of 118.3%.

	Return
Sub Fund 1	169.3%
Sub Fund 2	79.4%
Sub Fund A	118.3%

Table 4: Return as at 31 December 2024

As of 31 December 2024

Interim Bonus declarations

1.26. Meanwhile, over the review period pensioners were awarded pension increases of 7.2% at 30 June 2024 and 84.5% at 30 September 2024, thus a cumulative total of 97.8%.

Effective date	Pension Inc awarded
April to Sept 2024	7.2%
Oct-Dec 2024	84.5%
Cumulative	97.8%

Table 5: Pension increases

- 1.27. In addition, pensioners also received monthly lumpsums as follows, which have a cumulative impact of 18.9%.
 - a. ZWG Lumpsum payment equivalent to the ZWG current pension.

		ZWG Lumpsum
April-Sept 202	ļ	100.0% of monthly pension
Oct-Dec 2024		54.2% of monthly pension

- b. USD Lumpsum equivalent to the ZWG monthly pension and rounded up to the nearest multiple of USD 10 guaranteed, subject to the following minimums:
- i. USD 30 for principal pensioners,
- ii. USD 20 for spouse beneficiaries, and
- iii. USD 10 for child beneficiaries.
- 1.28. This means that overall, the pensioners received a cumulative total pension increase of 135.1% over the review period.

Financial Position as at 31 December 2024 before bonus

1.29. The financial position of the Fund due to the Members before bonus recommendations as at 31 December 2024 is as shown below:

2018 Surplus + Data reserve	16 092 763				16 092 763		16 092 763
Preserved	-			8 185 448	8 185 448		8 185 448
Pensioners			57 109 245		57 109 245		57 109 245
Pensioner's reserve			5 879 934		5 879 934		5 879 934
Surplus	494 524 773	313 567 635	9 246 356	13 866 792	831 205 556	-	831 205 556
Funding Level	270%	164%	115%	269%	197%	100%	196%

Table 6: Financial position before bonus as at 31 December 2024

1.30. The total liabilities before bonus allocation as at this review date amounts to ZWG 862 150 242 split ZWG 855 706 592 in Sub Fund A and ZWG 6 443 649 in the Stabilization Account.

As of 31 December 2024

- 1.31. The results show an excess of assets over liabilities of ZWG 831 205 556. This surplus translates to a Funding Level (Assets over Liabilities) of 196%.
- 1.32. This Funding Level shows that the Fund is financially sound as at 31 December 2024.
- 1.33. The Fund is Defined Contributions where at any given point the assets of the Fund must determine the liabilities of the Fund. This means the disclosed surplus must be distributed to Members of the Fund in the form of a bonus.

Bonus declarations

1.34. Based on the investment returns earned and the bonuses already credited, and considerations stated above, we recommend that Board members award the following additional bonuses over the review period 06 April to 31 December 2024.

Sub Fund A	Bonus	Comments
Sub Fund 1	169.0%	Cumulative
Sub Fund 2	79.4%	Cumulative
Preserved	169.0%	Cumulative
Pension increase	15.0%	Additional

Table 7: Recommended bonus as at 31 December 2024

1.35. In line with the Board Members' instruction, we have distributed the maximum bonus which can be afforded, leaving the barest surplus with the Fund.

Financial Position after bonus of the ZWG Sub Account A

- 1.36. Should the bonus recommendations be adopted and implemented by the Board members, this will leave the Fund with a surplus of ZWG1 417 683, thus leaving the Fund in a sound financial position.
- 1.37. Our bonus recommendations are therefore affordable. However, care must be taken to protect the Fund against future adverse market movements.
- 1.38. Should our recommendations be adopted by the Fund Board members, then the financial position of the Fund would be as shown below:

After bonus	Acti	ves	Pensioners	Preserved	ZEI	PF	Grand Total
	Sub Fund 1	Sub Fund 2	Sub Fund 1	Sub Fund 1	Sub Fund A	Stabilization account	
Assets	785 894 459	806 729 914	72 235 535	22 052 240	1 686 912 148	6 443 649	1 693 355 797

Surplus	298 600	1 015 726	69 972	28 526	1 417 683	-	1 417 683
Funding Level	100%	100%	100%	100%	100%	100%	100%

Table 8: Financial position after bonus as at 31 December 2024

As of 31 December 2024

- 1.39. We recommend that monthly returns be calculated for paying exits.
- 1.40. We recommend that monthly returns be calculated so as to determine if the Fund can afford to pay the Lump-sum benefits to the Pensioners, and the pension increase be based on what is earned.
- 1.41. In our view, the Fund will be financially sound at the next review date at 31 December 2025 should our recommendations be adopted and implemented by Board Members.

Implementation of the Zimbabwe Mortality Table (Circular 23 of 2024)

- 1.42. We have assessed the impact of the Zimbabwe Mortality Tables on the Zimbabwe Electricity Industry Pension Fund Pensioners.
- 1.43. Our assessment shows that the Zimbabwe mortality is lower than the current basis.
- 1.44. Since the Zimbabwe mortality is lower than the current basis (PA 90) this means that on the average our pensioners are living longer than what is being assumed, hence to continue paying the same pension this means we need to set aside more monies (reserves) so as to pay the pension for the now longer life.
- 1.45. This is illustrated in the Pensioners' financial position below;

31 December 2024	Before Pension	After Pension	After affordable
	Increase	Increase	Increase
Assets	72 235 535	72 235 535	72 235 535
Liabilities	67 492 216	77 324 610	72 218 920
Pensioners	61 612 281	70 588 075	65 927 195
Pensioner's reserve	5 879 934	6 736 534	6 291 725
Surplus	4 743 319	-5 089 075	16 615
Funding Level	107%	93%	100%

Table 9: Pensioners' financial position -Zim tables

- 1.46. As the Zimbabwe mortality is lower, we cannot afford a 15% increase as this will put the Fund into deficit as shown in the third column. If we are to move to Zimbabwe Mortality Tables then the Fund can only afford to award an additional pension increase of 7% as shown in the last column.
- 1.47. We that being said, we are not very comfortable in using the Zimbabwe Mortality Tables as we believe they do not correctly match the Fund's experience.

ZEIPF Compensation Framework

- 1.48. In line with the Statutory Instrument 162 of 2023 Pensions and Provident Funds (2009 Compensation) Regulations 2023 from IPEC we have quantified the compensation of the Fund.
- 1.49. The table below shows the total prejudice for the Fund;

	Total prejudice
31-Dec-2014	USD2 696 462
31-Dec-2024	USD3 623 820
Total	ZWG93 458 322

Table 10: Total prejudice as at 31 Dec 2024

1.50. Members of the Fund during the period 1 January 2004 to 28 February 2009 are entitled to a compensation of USD2 696 462 as at 31 December 2014 for the loss on their fund credits during the hyperinflation period between 2004 and 2008 which has been adjusted for time value of money to ZWG 93 458 322 as at 31 December 2024.

ACTUARIAL VALUATION (CONTINUED) As of 31 December 2024

1.51. The table below shows our proposed financing of the Compensation;

	31-Dec-2024 (USD)	31-Dec-2024 (ZWG)
Fund Portion (outstanding benefits)	114 596	2 955 424
Employer portion (Outstanding contributions)	818 020	21 096 731
Compensation Fund	2 691 205	69 406 167
	3 623 820	93 458 322

Table 11: Financing the prejudice.

- 1.52. After financing the prejudice from the Employer and the Fund, we recommend that the Fund set up a Compensation Fund amounting to ZWG 69.4 million (USD2 691 205) to be financed by one per centum annual levy on the total value of the Fund assets as per Section 9 of the Statutory Instrument 162 of 2023.
- 1.53. We understand that the Board Members are waiting for regulatory approvals of the Fund's Compensation Scheme, please refer to the Compensation Scheme of the Fund for further details.

Sub Fund B (USD)

- 1.54. The review period is from 1 January 2024 to 31 December 2024, as the Sub Fund was not affected by the currency conversion exercise as at 05 April 2024.
- 1.55. The total USD assets of the Fund as per the Financial Statements provided amounted to USD14 892 981 as at 31 December 2024.
- 1.56. The net assets backing liabilities after deducting non-pension related liabilities are USD14 892 981 split USD14 105 074 in Sub Fund B and USD787 907 in the Stabilization Account.
- 1.57. Based on the average assets held over the period from 1 January 2024 to 31 December 2024, and the total net investment income of the Fund the return earned on the assets amounted to an average of 9.3%.
- 1.58. Note the return is largely driven by the unsecured bank overdraft rate charge (10% per annum). There is a huge concentration in outstanding contributions (91% of the total USD assets), we therefore recommend that a plan be established on how these arrears may be collected.
- 1.59. This technically means that on a funded basis the Fund has a very small USD account of USD1 385 726 which Members need to note.
- 1.60. The total liabilities before bonus allocation as at this review date amounts to USD13 780 321 split USD12 992 414 in Sub Fund B and USD787 907 in the Stabilization Account.
- 1.61. The results show an excess of assets over liabilities of USD1 112 659. This surplus translates to a Funding Level (Assets over Liabilities) of 108%.
- 1.62. This Funding Level shows that the Fund is financially sound as at 31 December 2024.
- 1.63. Based on the investment returns earned and the bonuses already credited, and considerations stated above, we recommend that Board members award the following cumulative bonuses over the review period 1 January 2024 to 31 December 2024:

	Bonus	Comment
Sub Fund B	9.3%	Cumulative

Table 12: Recommended bonus as at 31 December 2024

1.64. Our bonus recommendations are therefore affordable. However, care must be taken to protect the Fund against future adverse market movements.

As of 31 December 2024

1.65. Should our recommendations be adopted by the Fund Board members, then the financial position of the Fund would be as shown below:

After bonus	ZEIPF					
	Sub Fund B	Stabilization account	Total USD	Total ZWG		
Assets	14 105 074	787 907	14 892 981	384 216 544		
Liabilities	14 090 275	787 907	14 878 182	383 834 758		
Actives Account	14 090 275		14 090 275	363 507 936		
Stabilization account		787 907	787 907	20 326 822		
Surplus	14 799	-	14 799	381 785		
Funding Level	100%	100%	100%	100%		

Table 13: Financial position after bonus as at 31 December 2024

1.66. Should the bonus recommendations be adopted and implemented by the Board members, this will leave the Fund with a surplus of USD14 799, thus leaving the Fund in a sound financial position.

Conclusion

1.68. We have carried out an Actuarial Valuation of the Zimbabwe Electricity Industry Pension Fund ('the Fund') as at 31 December 2024.

Final Bonus

1.69. The final bonus recommendations as at 31 December 2024 are shown in the table below:

	Bonus	Comments
Sub Fund A		
Sub Fund 1	169.0%	Cumulative
Sub Fund 2	79.4%	Cumulative
Preserved	169.0%	Cumulative
Pension increase	15.0%	Additional
Sub Fund B	9.3%	Cumulative

Table 14: Recommended bonus as at 31 December 2024

- 1.70. We recommend that monthly returns be calculated for paying exits as well as for basing pension lumpsums on earned and realised returns.
- 1.71. In our view, the Fund will be financially sound at the next review date should our recommendations be adopted and implemented by Board members.
- 1.72. We will be happy to discuss all the issues raised in this report.

For and on behalf of MAOS

David T. Mureriwa

Fellow of the Actuarial Society of South Africa Fellow of the Faculty of Actuaries (UK)

(In my capacity as the Fund Actuary)

23 July 2025

NOTICE

Notice is hereby given that the 5th Annual General Meeting of the Zimbabwe Electricity Industry Pension Fund (ZEIPF) will be held both on the virtual platform (ZOOM) and physically in the Jacaranda Conference Room, at the Zimbabwe Electricity Supply Authority (ZESA) National Training Centre, Ganges Road, Belvedere South, Harare on Friday, the 29th of August 2025 at 0900hrs.

AGENDA

Ordinary Business

1. Minutes of the Previous Meeting

To confirm and sign off the minutes of the 4th Annual General Meeting held on the 24th of May 2024.

2. Financial statements

To receive and adopt the audited financial statements for the year ended 31 December 2024 and the reports of the Board, Auditors and Actuaries thereon.

3. Board Members

3.1 Board remuneration

To ratify Board fees for the year ending 31 December 2024. (Board fees are included in the annual report.)

3.2 Retirement and appointment of Board Members

- 3.2.1 To note the retirement of Eng. G. Tsumbalagwa, Mr. E. Vudzijena. Eng. E. Ncube, Mr. D. N. Chiradza and Mr. S. Chikwasha with effect from 31 May 2024.
- 3.2.2 To note the appointment of Dr. H. Murerwa, Mr. S. Mkanganwi, Mr. B Ndlovu, Ms P. Mbuta and Eng Y. Mufambi with effect from 1 June 2024.

4. External Auditors

To ratify the auditors' fees for the past financial year.

5. Any other business

To transact any other business as may be transacted at an Annual General Meeting.

Appointment of Proxy

In terms of the AGM Guidelines, members entitled to attend and vote at the meeting may appoint a proxy to attend, vote and speak on their behalf. The proxy should be a member of the Fund. The proxy must be lodged at the Fund's registered office at least 48 hours before the time of the meeting.

Meeting details

The meeting link will be sent via SMS to members and pensioners five days before the meeting and can be requested from the Fund by emailing to smapiye@zesapf.co.zw or mdumba@zesapf.co.zw.

By order of the Board

Bright Kondo Secretary/Principal Officer
